

# Dalapro Plus

## PRODUCT INFORMATION

Dalapro Plus is a pink-toned starch adhesive for wallpaper, non-woven, fibreglass and cellulose/polyester fabric in dry areas. Dalapro Plus can be used on common substrates such as plasterboards, wooden panels, plaster and painted surfaces.

The pink colour for easy identifying of already pasted areas will turn transparent when the product dries.

The product fulfils the Swedish wallpaper industries trade organisation requirements for adhesives. The product is manufactured in accordance with ISO 9001 and ISO 14001

## Instructions

Apply Dalapro Plus using a roller, brush, airless piston pump or a wall paper machine at a minimum temperature of +5°C. Surfaces should be clean, dry and firmly attached and previously painted surfaces must be washed and sanded. Follow your local branch regulations and recommendations.
